

# Vandal Guard Sharps Enclosure

## Product Specification Sheet

### Product Overview

The Vandal Guard Sharps Enclosure is a wall-mounted, clear polycarbonate protective housing designed as a retrofit solution for Portland Loo restrooms. It securely encloses a standard sharps container while providing high visibility, vandal resistance, and enhanced safety in public restroom environments.

### Material

- Constructed from 1/8" thick clear polycarbonate sheets
- Shatter-resistant and impact-resistant material for public use environments

### Construction

- Precision-cut polycarbonate panel construction
- Airtight enclosure design to reduce fire hazards and limit airflow
- Reinforced seams and joints for durability and structural integrity
- Clear panels provide full visibility of contents for safety and maintenance awareness

### Finish

- Clear polycarbonate finish
- Smooth, low-glare surfaces designed for visibility and ease of cleaning

### Mounting & Hardware

- Wall-mounted configuration
- Designed as a retrofit for Portland Loo restroom installations
- Compatible with tamper-resistant mounting hardware

### Safety & Compliance

- Airtight design helps reduce fire hazards
- Clear enclosure improves safety through visibility
- Designed to maintain ADA compliance when installed per guidelines

### Application

- Secure sharps disposal enclosure for public restrooms
- Ideal for parks, transit facilities, streetscapes, and other high-use public environments
