BABY CHANGING STATION

KOALA KARE KB301 · WALL MOUNT

A surface-mounted, fold-down baby changing station built in the USA. It comes in Loo stock grey, beige or white granite.

50 lb	6-pc	Microban®	ADA
MAX TOTAL LOAD	TAMPER-RESISTANT HARDWARE	ANTIMICROBIAL BED SURFACE	2010 ADA & ICC A117.1

OVERVIEW

The Koala Kare KB301 gives parents a safe, clean place to change a baby inside the Portland Loo. When closed it is only 4" deep, so it keeps clear floor space. A concealed pneumatic cylinder lowers and raises the bed slowly and smoothly.

The bed is injection-molded polypropylene with Microban® antimicrobial additive. It hangs on a steel-on-steel hinge and a metal mounting chassis with no exposed hinge parts. Koala Kare makes and assembles it in Centennial and Englewood, Colorado.

KEY FEATURES

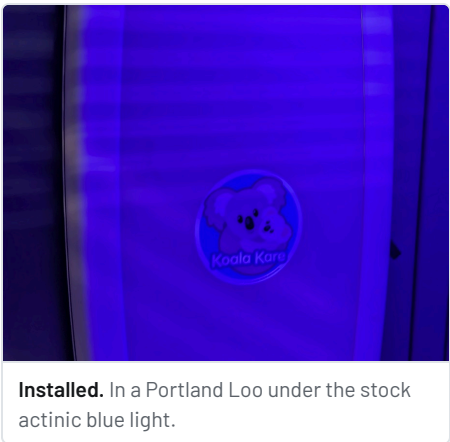

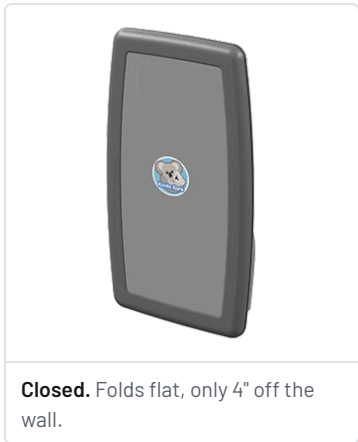

- 01 Easy to clean**
Polypropylene resists odors and bacteria, and Microban® is built into the bed surface.
- 02 Safe and secure**
6-pc tamper-resistant mounting hardware, a TPU safety strap, a contoured 535 sq. in. changing area and a stainless steel bag hook.
- 03 Built-in liner dispenser**
Holds about 50 KB150-99 liners and dispenses one at a time.
- 04 Loo-matched colors**
Loo stock grey standard, with beige and white granite available.

CONSTRUCTION & SPECIFICATIONS

Model	Koala Kare KB301 surface-mounted baby changing station (KB301-01 grey shown)
Made in	USA, by Koala Kare Products (a division of Bobrick) in Centennial and Englewood, Colorado
