

COLD-WEATHER PACKAGE

Loo Extreme Cold Weather Curtain

Woven-mesh reinforced vinyl curtains that close off the upper and lower louvers against cold air, wind, snow and rain.

Fits: Portland Loo V1 Classic

XL model: coming soon

Warranty: 2 years

— OVERVIEW

The Portland Loo's open louvers keep the restroom ventilated and visible, and that's what makes it safe and easy to maintain. In extreme cold, those same openings let freezing air and wind chill straight into the restroom.

The Extreme Cold Weather Curtain covers the upper and lower louvers to cut drafts and hold interior temperatures steadier. It also keeps blowing snow and driving rain from overrunning the restroom floor.

— KEY FEATURES

- 01 Blocks cold air & wind chill**
Reduces cold air entering through the louvers and limits wind-chill temperature drop inside.
- 02 Keeps out snow & rain**
Helps stop precipitation from being driven in and overrunning the restroom.
- 03 Built for abuse**
Woven-mesh reinforced vinyl with a double-reinforced border and mounting grommets.
- 04 Stays put in high wind**
Triple-reinforced chain keeps the lower curtains in position during high-wind events.

CONSTRUCTION

Material	Woven-mesh reinforced vinyl
Border	Double-reinforced perimeter border
Mounting	Grommets set in the reinforced border
Wind retention	Triple-reinforced chain keeps lower curtains in position during high winds
