4-pc

Tamper-resistant hardware

— OVERVIEW

The standard plastic closer cover is often the first piece of door hardware to crack, get pried loose, or go missing on a public restroom.

The Vandal Guard Closer Cover replaces it with a formed 1/8" stainless steel shell. Enhanced bolt-down locations hold it firmly against the closer, and it installs with tamper-resistant hardware that matches the Portland Loo's existing hardware specs.

— KEY FEATURES

- 01 Heavy-gauge stainless**
1/8" thick 304 stainless steel. 316 is available on request for coastal or corrosive sites.
- 02 Enhanced bolt-down points**
Extra mounting locations make the cover harder to damage by impact or remove for theft.
- 03 Direct LCN replacement**
Designed to replace the plastic LCN brand closer cover.
- 04 Tamper-resistant hardware**
Each cover includes a 4-piece fastener set matched to Portland Loo hardware.
