

MADDEN FABRICATION · STAINLESS WASTE RECEPTACLE

VANDAL GUARD TRASH CAN

WALL-MOUNTED · 3/16" STAINLESS

A heavy-duty, fully welded stainless steel replacement for the Generation 1 Portland Loo trash can and the Bobrick B-279, made in the USA.

3/16" 304 STAINLESS; 316 ON REQUEST	14 × 18 × 6" W × H × D, SAME AS B-279	12-pc TAMPER-RESISTANT HARDWARE	USA MADE IN AMERICA
---	---	---	-----------------------------------

OVERVIEW

The Vandal Guard Trash Can is a wall-mounted waste receptacle built for high-abuse public restrooms. It is formed from 3/16" thick type 304 stainless steel, and every seam is welded so it resists denting, prying and theft.

It matches the Bobrick B-279 footprint, so it drops into the same spot as the Generation 1 Portland Loo trash can. Four keyhole slots and the included 12-piece tamper-resistant hardware set make the swap quick.

KEY FEATURES

- 01 3/16" plate stainless**
Type 304 standard, 316 on request; about 41.7 lb of steel.
- 02 Fully welded**
Precision-formed, welded body with a reinforced open top and broken, deburred edges.
- 03 Direct replacement**
Same 14" × 18" × 6" size as the Bobrick B-279 and the Gen 1 Portland Loo can.
- 04 Tamper-resistant install**
Keyhole mounting slots plus a 12-pc tamper-resistant hardware kit.
