ECONOMY REPLACEMENT WASTE RECEPTACLE

BOBRICK B-279 TRASH CAN

A lower-cost stainless steel waste receptacle that mounts to the Portland Loo's existing waste receptacle holes. It comes with a removable vinyl liner.

6.4 gal	14 x 18 x 6"	304 SS	Liner
Capacity (24.2 L)	W x H x D	Satin finish, all-welded	Removable vinyl liner included

OVERVIEW

The Bobrick B-279 is an economical way to replace a damaged or worn Loo waste receptacle. It has the same 14" x 18" x 6" footprint as the original, and its mounting pattern lines up with the existing waste receptacle mounting holes on the Portland Loo, so no new holes are needed.

Mounting hardware is not included with this model. Let your Loo parts solution team know if you need new hardware. For the toughest locations, the Madden Vandal Guard Trash Can, made from 3/16" stainless plate, is the heavy-duty alternative.

KEY FEATURES

01 **Fits the existing holes**
Four mounting points on an 11" x 14" pattern match the Loo's waste receptacle mounting holes.

02 **Removable liner**
A heavy-gauge vinyl liner with four grommets hangs on four spot-welded interior hooks and lifts out for servicing.

03 **All-welded stainless**
Type-304 stainless with a satin finish, a hemmed top edge and a recessed finger grip on the bottom for safe handling.

04 **Easy floor cleaning**
Wall-mounted off the floor, so the floor underneath stays clear for mopping.
