REPLACEMENT PART LIGHTING

24V LED Rope Light
Actinic Blue

The 3/8" low-voltage LED rope lighting used on the Portland Loo, sold by the foot in the Loo's standard actinic blue, with other colors on request.

24V	3/8"	Every 6"	65 ft
LOW-VOLTAGE INPUT	ROPE DIAMETER	CUTTABLE LENGTH	MAXIMUM RUN

OVERVIEW

This 24V LED rope light is the stock lighting color on the Portland Loo: actinic blue. LEDs are spaced every inch inside a flexible 3/8" rope, giving an even line of light that draws less than 1 watt per foot.

It's sold by the foot and can be cut every 6", so it can be matched to your exact run, up to 65 ft. Power connectors, end caps and mounting clips are available too. They aren't included automatically, so add them to your order.

KEY FEATURES

01 **Loo-standard actinic blue**
The same blue as the Loo's stock lighting. Other colors are available on request.

02 **Low voltage, low power**
A 24V input and about 0.87 W per foot.

03 **Cut to fit**
Cuttable every 6" for runs up to 65 ft.

04 **Even light**
LEDs every 1" (25.4 mm), set horizontally in a flexible 3/8" rope.

Type	3/8" LED rope lighting, flexible
Input voltage	24V
Power consumption	0.87 W per foot
LED spacing	1.0" (25.4 mm), horizontal orientation
Cuttable	Every 6"
Maximum run	65 ft
Operating temperature	–4°F to 122°F
Sold	By the foot
Compliance	CE-EMC

ORDERING OPTIONS

OPTION	STANDARD	AVAILABLE ON REQUEST
Color	● Actinic blue STD	Other colors (ask us)
Length	Per foot, cut to your run (6" increments)	—
Accessories	Not included	Power connector, end caps, mounting clips

ACCESSORIES · order separately

Power connector
Lead cord that powers the rope

End cap
Clear cap that seals a cut end

Mounting clip
Holds the rope in place

ORDERING TIP

Tell us the total run length, how many separate runs you need, and the color. Order one power connector and one end cap for each run, plus mounting clips about every 12".
