REPLACEMENT PART LIGHTING V1 CLASSIC

VANDAL GUARD INTERIOR LIGHT

Madden's vandal-resistant interior light fixture for the V1 Classic Loo. A powder-coated stainless housing and a triple-layer polycarbonate security lens protect two 24" low-voltage Lumi Lite LED strips.

2 x 24"	Low V	304 SS	3-layer
Lumi Lite LED strips (sold separately)	Low-voltage LED lighting	Powder-coated housing	Polycarbonate security lens

OVERVIEW

The Vandal Guard interior light is part of Madden Fabrication's Vandal Guard series and is the interior light fixture on the V1 Classic Portland Loo. Its 304 stainless housing is powder coated, and its lens is triple-layer polycarbonate, the same construction as Vandal Guard security glazing.

The fixture holds two 24" low-voltage Lumi Lite LED strips. The strips are sold separately, so you can replace a worn or damaged fixture and keep working strips, or change the strips without replacing the fixture.

KEY FEATURES

01 **Security-glazing lens**
Layered polycarbonate absorbs impact instead of cracking or shattering like acrylic, so there are no sharp fragments.

02 **Stainless housing**
304 stainless steel with a durable powder coat (316 on request) stands up to abuse and cleaning.

03 **Low-voltage LED**
Two 24" Lumi Lite strips run at low voltage. Actinic blue is stock, with bright white or 50/50 blue/white also available.

04 **Relamp without replacing**
The fixture and strips are separate parts, so you only replace what's damaged.

SPECIFICATIONS

ITEM	DETAIL
Product	Vandal Guard interior light fixture, Madden Fabrication Vandal Guard series
Fits	Portland Loo V1 Classic, interior light
Housing	304 stainless steel, powder coated (316 on request)
Lens	Triple-layer clear polycarbonate security glazing. Shatter and impact resistant, and absorbs impact by deforming instead of fracturing.
Lamps	2 x 24" low-voltage Lumi Lite LED strips, sold separately
Strip colors	Actinic blue (stock); full-spectrum bright white; 50/50 blue/white
Wiring	Junction box with conduit connection on the housing
Made by	Madden Fabrication

ORDERING OPTIONS

OPTION	STANDARD	AVAILABLE ON REQUEST
Housing	304 SS, powder coated STD	316 SS
LED strips	Not included	2 x 24" Lumi Lite: actinic blue, bright white or 50/50
Fits	V1 Classic STD	—

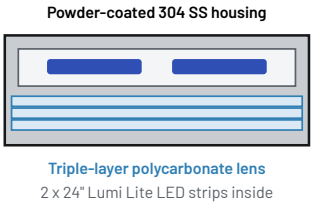

VIEWS

Installed. Lit with the stock actinic blue Lumi Lite strips in a V1 Classic.

Lumi Lite strip. 24" low-voltage LED strip, sold separately (2 per fixture).

Section. Two LED strips sit inside the housing behind the layered lens. Schematic, not to scale.

ORDERING TIP

The LED strips aren't included. Order two 24" Lumi Lite strips with the fixture, and replace both at the same time so the color and brightness match.
